

ENFORCEMENT REVIEW  
Preliminary Site Investigation Reports  
Uncontrolled Hazardous Waste Site Project

Reviewer: D. Stefani

Date: 4/15/80

Site: Hillyard Processing  
(Aluminum Recycling Corp.)  
Spokane, WA (Trentwood)

Potential for Enforcement Action (based upon file information)

☐ Likely  
☐ Possible  
☐ Not Likely  
☒ Unknown (See comments)

Recommendation:

☐ Site File should be referred to Enforcement.  
☒ Site File should be Kept Open (see Comments)  
☐ Site File Should be Closed.

Comments:

1. What is the permeability of the local ground?
  2. What other materials are present in the dross  
i.e. metals, organics etc which may leach  
out with the water?
  3. Are the sedimentation ponds lined?
  4. Has any well sampling been done in the past?
